Glanville Price

The Celtic Connection Glanville Price,1992 As the Editor points out, the Celtic identity is not one of race - the genetic links, if they are there at all, just cannot be proved - but it is of a common linguistic and cultural heritage. The Celtic Connection focuses on the similarities and differences in language across the Celtic nations and contributes to the resurgence of interest in the Celtic identity which is increasingly being supported by official bodies, both national and international.

Television broadcasting in Northern Ireland Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee,2010-01-26 It has become apparent that Northern Ireland feels left behind in UK broadcasting terms. Levels of production are comparatively low. Northern Ireland producers find it difficult to win commissions from the UK's major broadcast organisations. Digital switchover, already under way in some parts of the UK will not occur in Northern Ireland until 2012. Nor, since UTV remains strong enough to provide news in competition with the BBC, will Northern Ireland benefit from public money proposed for new independently funded news consortia. The evidence the Committee received confirms and demonstrates that Northern Ireland is the least well served of the UK's four nations in terms of network production that reflects and portrays its life and in the amount of network programming produced there. The Committee makes a number of recommendations to remedy this.

The Celtic Languages Martin J. Ball,Nicole Muller,2009-09-10 The Celtic Languages describes in depth all the Celtic languages from historical, structural and sociolinguistic perspectives with individual chapters on Irish, Scottish Gaelic, Manx, Welsh, Breton and Cornish. This second edition has been thoroughly revised to provide a comprehensive and up-to-date account of the modern Celtic languages and their current sociolinguistic status along with complete descriptions of the historical languages. This comprehensive volume is arranged in four parts. The first part offers a description of the

typological aspects of the Celtic languages followed by a scene setting historical account of the emergence of these languages. Chapters devoted to Continental Celtic, Old and Middle Irish, and Old and Middle Welsh follow. Parts two and three are devoted to linguistic descriptions of the contemporary languages. Part two has chapters on Irish, Scots Gaelic and Manx, while Part three covers Welsh, Breton and Cornish. Part four is devoted to the sociolinguistic situation of the four contemporary Celtic languages and a final chapter describes the status of the two revived languages Cornish and Manx. With contributions from a variety of scholars of the highest reputation, *The Celtic Languages* continues to be an invaluable tool for both students and teachers of linguistics, especially those with an interest in typology, language universals and the unique sociolinguistic position which the Celtic languages occupy. Dr Martin J. Ball is Hawthorne-BoRSF Endowed Professor, and Director of the Hawthorne Research Center, at the University of Louisiana at Lafayette. Dr Ball has over 120 academic publications. Celtic Revival? Sean Kay, 2011-08-16 *Celtic Revival?* explores what happens when a society loses its wealth, its faith in government, and its trust in its Church. The glorious rise of the Celtic Tiger in Ireland was thought by many to be a model for future economic growth for countries around the world; its dramatic crash in 2008 resonated equally widely. Yet despite the magnitude of the ongoing collapse, Sean Kay shows that seen in historical perspective, the crisis is part of a much larger pattern of generations of progress and change. Kay draws on a rich blend of research, interviews with a broad spectrum of Irish society, and his own decades of personal experience to tell the story of Ireland today. He guides the reader through the country's major economic challenges, political transformation, social change, the crisis in the Irish Catholic Church, and the rise of gay rights and multiculturalism. He takes us through the streets of Derry and Belfast to understand the Northern Ireland peace process and the daunting task of peace building that has only just begun. Finally, we see how Irish foreign policy has long been a model for balancing competing interests and values. Kay concludes by highlighting Ireland's lessons for the world and mapping a vital path for twenty-first-century challenges and opportunities for the coming generations in Ireland and beyond.

The History of the Celtic Language Lachlan Maclean,2015-06-26 Excerpt from The History of the Celtic Language: Wherein It Is Shown to Be Based Upon Natural Principles, and Elementarily Considered, Contemporaneous With the Infancy of the Human Family If any person take up the History of the Celtic Language as about to be submitted, and expect to get through it as through a song, for that person the author has not written: Intelligibilia non intellectum adfero. At the commencement of the present order of material things, the first sun indicated day by a faint but perceptible heraldic emanation in the East, gradually waxing stronger and stronger, till now, behold! the king of day himself gilding the summit of the mountains with the splendour of his countenance, and now gradually mounting, and diffusing stronger light - stronger intelligence - till he arrives at the goal of noon. This appears to the author no inapt emblem of the commencement of the order of things in the moral world. The Irish Language (RLE Linguistics E: Indo-European Linguistics) John Edwards,2014-01-10 In compiling this bibliography, the main purpose was to assemble references to published material of a sociolinguistic nature concerning the Irish language. The intent was not to cover publications treating language per se, but rather to consider those dealing with language in its social context. Represented here are articles, chapters, books and pamphlets bearing upon social, historical, psychological and educational aspects of Irish - including the decline of the language, the restoration effort, the relationship of language to nationality and religion, and studies of important figures in the language movement.

Language, Ethnicity and the State, Volume 1 C. O'Reilly,2016-01-18 Developments in the European Union over the last decade have been largely positive from the perspective of stateless and minority ethnic groups and the survival and prosperity of minority languages. This selection of sociologically and ethnographically oriented work enables the reader to compare developments in different ethno-linguistic revival movements within the European Union. The contributions also explore the impact of EU policy and discourse on the individual movements and the orientation of Western Europe as a whole towards linguistic heterogeneity and cultural diversity. A companion volume (0-333-92924-1) examines the status of minority

languages in post-1989 Eastern Europe.
